

Saint-Gobain India showcases innovative EV battery solutions at The Battery Show 2023

Bengaluru, 4th October 2023 :

The High-Performance Solutions (HPS) Business of Saint-Gobain India is driving innovation in EV Battery packs with its well-engineered solutions, to meet the evolving demands of the electric vehicle industry. The business showcased its tailor-made solutions at the Battery Show India 2023, a premier event, dedicated to advanced battery technology and innovation.

Speaking on the occasion, **Ritesh Patterson, General Manager - Performance Plastics, Saint-Gobain India** said, *“Electric vehicles (EV) require battery pack protection solutions that address extreme conditions of temperature, smoke among others. This is exactly what we offer at Saint-Gobain, with safety and performance being top priorities. Saint-Gobain’s battery pack solutions are driven to deliver EV battery pack protection by providing materials that reduce manufacturing complexity while improving overall battery life. And today, we are delighted to be a part of this event where the industry is evolving, showcasing well-engineered solutions, and empowering the growth of efficient and reliable vehicles. Together, we aim to illuminate the path towards a greener tomorrow, driving forward with precision, purpose, and the promise of better, more advanced EV batteries for a cleaner, electrifying future.”*

The battery pack protection solutions by Saint-Gobain India are meticulously engineered to withstand extreme conditions, encompassing compression and tolerance pads, thermal runaway protection, and more. Additionally, the company provides electrical insulation, thermal management products, and tapes for the electric vehicle sector, all with an unwavering commitment to prioritizing safety and performance in EV battery pack design and manufacturing.

ABOUT SAINT-GOBAIN

Worldwide leader in light and sustainable construction, Saint-Gobain designs, manufactures and distributes materials and services for the construction and industrial markets. Its integrated solutions for the renovation of public and private buildings, light construction and the decarbonization of construction and industry are developed through a continuous innovation process and provide sustainability and performance. The Group’s commitment is guided by its purpose, “MAKING THE WORLD A BETTER HOME”.

€51.2 billion in sales in 2022

168,000 employees, locations in 75 countries

Committed to achieving Carbon Neutrality by 2050
